PRESENTS**

2012-2013 YEARLONG SEMINARS

East Bay

CLINICAL SEMINAR OF THE ANALYSTS OF THE SCHOOL

A Case Conference Focused on Subjective and Diagnostic Structures

This year's case conference will be focused around a study of subjective/psychical structures and their relationship to diagnostic structures. In this context we will explore the relations among symptom, act, trait, and structure. Each of the diagnostic groups can have symptoms of the other and yet are distinguished by particular defenses and configurations of desire and *jouissance*. Subjective structures over include the distinction between character and neurosis, normality and pathology, clinical and existential suffering. Within psychoanalysis symptoms are transformed into *sinthomic* traces via the root of the symptom in a character trait. The English analytic tradition studied the schizoid character as a sub-category that can be distinguished from psychosis and schizophrenia. The seminar will examine the relations and differences among the schizoid and borderline character, the new hysteria, Deleuze and Guattari's schizo-subject, and what Miller calls ordinary psychosis. Perverse and Psychotic structures will be differentiated from neurosis with perverse or psychotic symptoms/traits.

SEMINAR ON THE *ECRITS*

It has been about 8 years since the publication of Bruce Fink's English translation of the Complete Edition of Lacan's *Ecrits*. For many years the English-reading world only had some samplings of the book through Alan Sheridan's translation of selected essays, and of independent and separate translations of some of the remaining texts. Fink's translation is an event. Unfortunately, however, the book has been underused. We will be reading and discussing the major essays every week for four months (or more) starting the first week of August. This will be a good opportunity to read key writings such as "The Function and Field of Speech and Language in Psychoanalysis," "The Freudian Thing," "The Instance of the Letter...", "On a Question Prior to any Treatment of Psychosis," "The Direction of the Treatment and the Principles of Its Power," "The Signification of the Phallus," "Kant with Sade," "Subversion of the Subject and the Dialectic of Desire," "Position of the Unconscious," "Science and Truth"... It has been said that the *Ecrits* is a very difficult text. True, but this should not discourage participants in reading it. If readers have gone through Lacan's Seminar XI on *The Four Fundamental Concepts of Psychoanalysis* or Seminar XX, *Encore*, the *Ecrits* should not be as intimidating, and in fact should be as enjoyable.

Faculty: Marcelo Estrada, Analyst of the School; Ali Chiavosian, PhD
Location: 2305 Ashby Street, Berkeley, CA
Dates: Thursdays, 7:00 p.m., starting first week of August until end of November 2012
Tuition: \$575.00
Participation: This seminar is open to everyone: candidates, non-candidates, and others who are simply interested in Lacan. Requests to attend this seminar should be addressed to Marcelo Estrada, marcelo.estrada@gmail.com

San Francisco – Year Long

READING GROUP IN SPANISH: "THE SUBJECT IN THE BORDER STATE".

FRENCH TEXT BY JEAN-JACQUES RASSIAL IN SPANISH TRANSLATION

This is a reading group for clinicians and students interested in the theory and practice of clinical Lacanian psychoanalysis. The reading will be an opportunity to articulate Lacanian theory to the presentation of the subject in the border state in its structural and topological aspects. The text examines borderline states, in the subject and in contemporary society. It addresses the psychoanalytic act, by posing its advancement in our listening as clinicians.

For questions please contact Dora Grisetti, dgrisetti@earthlink.net

Fee: \$50/month. Location: 870 Market St, San Francisco (across Powell Bart Station). Fridays / once a month. Time to be determined.

STUDY GROUP ON FREUD'S CASE HISTORIES

This reading and discussion group will meet one evening a month in San Francisco from 6:15-9:15pm, beginning in September and ending in May 2013. Our focus is a close reading of Freud's clinical cases: Anna O., Little Hans, Dr. Schreber, etc. Specific dates will be arranged prior to September. For more information or to join the group, please contact Fernando Castrillon, Psy.D. at fcastrillon@ciis.edu

LACAN READING FREUD: FORMATIONS OF THE UNCONSCIOUS

"...don't expect Freud to show up for an appointment if it's supposed to take place in a conventionally defined place. One has to proceed very cautiously with Freud – when we

believe that the texts will provide the answers we're expecting, they don't. They go to unexpected, unforeseen places..." - R. Harari (2001)

This seminar will conduct a close, parallel reading of the first half of Lacan's 1957-1958 seminar, *Formations of the Unconscious*, alongside the text upon which it is explicitly and primarily based - Freud's *Jokes and their Relation to the Unconscious*. What are the clinical stakes and implications of this basis? What is at stake in Freud's book on jokes, insofar as it is addressed to the analytic experience of its readers? Participants have the opportunity of re-discovering the (un)familiar not only in Freud's analysis of the unconscious formation, but also in Lacan's treatment of it as ground for a series of inaugural re-orientations, concerning: the relation of metaphor to metonymy, the embedding of ego-formations within the structure of Demand, the three moments of Oedipus, differentiation of object from signifier within the phallic function, differentiation of desire from Jouissance, construction of the 'graph of desire,' and beyond. New translations of Lacan's seminar will be provided by the facilitator.

Faculty: P.G.Young MFTI / candidate analyst, and Participants
Location: San Francisco
Time: 15 sessions beginning in September, 2012
Tuition: \$300
For information call 510.418.6088, or email p.geoffrey.young@gmail.com

ON THE QUESTION OF IDENTIFICATION AND IDENTITY IN PSYCHOANALYSIS AND SOCIETY

This seminar will study Raul Moncayo's text "The Emptiness of Oedipus". The basis of the book/seminar is Freud and Lacan's teaching on Identification. The question of ego-identity championed by noted San Francisco psychoanalyst Erik Erikson is examined in the light of Lacan's seminar on Identification. The proposed theory has a direct bearing on the aim and end of analysis proper and on the question of variable-length and brief analysis. Postmodernism and post-structuralism are examined from the point of view of Lacanian psychoanalysis as a critical discourse needed to understand and transform the question of majority and minority ego-identity politics within a new cultural era.

Faculty: Raul Moncayo
Date and Time: Fridays 1-3PM beginning Friday Sept. 7th, 2012
Location: 2712 Mission, SF.
Fee: Free
Contact: drraulmoncayo@gmail.com

South Bay – Year Long

SOUTH BAY DIDACTIC CLINICAL CONSULTATION SERIES: SEMINAR 14 THE LOGIC OF FANTASY

This year the South bay group will pursue a critical reading of Lacan's Seminar 14 on the Logic of Fantasy through which the participants will investigate the logical articulation of fantasy, the relation of the structure of fantasy to the structure of the signifier, the concept of the Universe of discourse, the relation of fantasy to writing, and ultimately connect these concepts to Freud's ideas on the relation of thinking to language and the unconscious. Classes will include clinical presentations and additional reference readings as appropriate throughout the course.

INTRODUCTION TO LACAN: BASIC CONCEPTS

This annual seminar provides an overview of Lacan's fundamental theoretical concepts and does not presuppose prior familiarity with Lacanian theory. After providing an overview of Lacan's life and seminal influences on his work the instructors will introduce the theory of the signifier to explain Lacan's theory of the unconscious and of desire, and the formation of the subject. A presentation of the registers of the Real, Imaginary, and Symbolic will serve as background for a review of other seminal concepts, such as Lacan's view of narcissism, identification, and the drive, as well as the distinctions between pleasure and *jouissance*.

ON THE INVENTION OF PSYCHOANALYSIS

Nestor Braunstein, M.D.
Mexico City

In this lecture Braunstein will articulate, perhaps for the first time in regard to psychoanalysis, four terms that can be useful in defining some essential aspects of the history, the theory and the practice of our discipline. These four terms dwell in the same neighborhood but at the same time they carry essential differences among them. To begin by ending the suspense, I will name them: **Creation -- discovery -- production -- invention.**

As we can easily see, there is an element they share, something they have in common; they all belong to the same semantic field. In every case they refer to the emergence, or the appearing, of something new, something that is now present and was previously absent. The four of them are different ways of generating or engendering new “objects” whose nature can be ascribed to a vast variety of categories.

Date: Saturday May 17, 2013
